

RED LAKE EARTH[®]

Diatomaceous Earth

with Calcium Bentonite 

APPLICATION INSTRUCTIONS FOR FEEDING AND USING RLE:

FEEDING RLE (RLE can be mixed in feed, put on topically of fed Free Choice)

1. When mixing into your feed, we recommend adding only 2% to your total feed. If you are making a ton of feed, mix in 40 lbs.
2. When putting RLE topically onto feed use 2-3 tablespoons per day.
3. When feeding Free Choice - Place a 40 Lb into a large tub and your animals will eat what they need, but no more. Animals are pretty smart, they smell the minerals they need and what Diatomaceous Earth is and seek it.

Dosages for specific animals:

Horses:

- 500 to 1,000 lbs - 1 tablespoon per day
- 1,100 to 1,800 lbs - 2 tablespoons per day
- Over 1,800 lbs - 3 tablespoons per day

Dogs & Cats:

- If their weight is under 100 lbs, you can feed them 1/4 teaspoon per day.
- Sprinkle RLE in/under their beds and on them to help rid them of fleas & Ticks.

Sheep, Goats, Alpacas, etc:

- 1/2 tablespoon per day

Dairy Cows, Beef Cattle, etc:

- Feed approximately 1% of their daily ration or give it to them Free Choice.

Although there are several web-sites out there that indicate all the other benefits of Diatomaceous Earth and the benefits of using DE for human consumption there are no DE products registered with the EPA or the FDA for Human Consumption. We advise that you do your own research on the benefits of Diatomaceous Earth and make your own decisions. Choosing to use the product for other uses other than what it is registered for is done solely at the risk of the end-user. We are not in the position to advise the use of our RLE products for any other purpose other than what the product is registered for and what is indicated on the packaging.
